Medication

We have a Management of Medication procedure consisting of 5 stages.

We train staff in the administration of medication.

If you require medication to be passed on to your child's school, prior consent must be given by the school.

If your child requires any medication whilst attending, you will be required as per regulations to fill in the appropriate medication forms.

Parent/carer must give the first dose of any new medicine to ensure the child does not have an adverse reaction to the medication. This would not include emergency medication such as an adrenaline pen where the risk of not giving it could outweigh any adverse reaction.

All medication must be in the original container, labeled with the child's name, expiry date and information leaflet, that will be read by administering staff where possible.

The parent/carer will be notified immediately if the child refuses, it is spat out or an overdose is administered.

For the benefit of all service users, if a child becomes unwell, we will contact the parent/carer and request their child to be collected as soon as possible. All medication will be audited monthly, expired medicine will be returned to the parent/carer or pharmacist. We reserve the right to refuse the administration of invasive medical procedures and if the medicine does not seem appropriate staff will contact the parent/carer to inform them it will not be administered.

Lost Property

We do not accept responsibility for children's lost items.

However, every attempt will be made to identify the owner of the lost property and return the item to them.

Please ensure all your child/ren's belongings are labelled. Any unclaimed/unlabelled items will be discarded at the end of each day.

Contingency & Closure Arrangements

In the unlikely event of a play setting closing due to, a pandemic /outbreak staff illness or extreme adverse weather conditions or school closure.

We will contact the parent/carer, if unable to reach, we will contact additional contact. Stating day of closure and foreseeable length of closure. When applicable, notify the appropriate authorities regarding a pandemic/outbreak. If registration numbers allow, we will endeavour to care for the children in one of our other settings.

Our aim will be to ensure that no parent is without care for his or her child that is within our control.

Should one of the play settings have to close permanently we will give all parent/carer at least 1 months' notice.

Withdrawal of Placement Policy

The Board of Directors and Management reserve the right to withdraw my placement as per the terms including the Exclusion - Inappropriate Behaviour.

Exclusion - Inappropriate Behaviour

We use a Promoting Positive Behaviour Programme on a daily basis however, if a child displays negative or inappropriate behaviour or breaks one of the play setting rules, they will be asked to stop by a member staff. If a child has threatened or physically hurt another child or there have been repeated behavioural issues, parents/named responsible person collecting the child will be informed. We will then formally record and follow the stages below: We will keep the parent/carer informed at every opportunity with openness and transparency around decision-making. If parent/carer is unable to attend any meetings, it is acceptable to put any points in writing.

Stage 1

When the child's parent/carer has been informed and appears to be no improvement in behaviour within a period (1-4 weeks) **1st meeting** with the supervisor, a manager, and parent/ carer will take place.

We will discuss any outside influences that are affecting behaviour and put in place positive supporting methods. At this stage, we require consistency of support from the parent/carer additionally we require consent to communicate frequently with the school/ class teacher to follow the GIRFEC (Getting it right for every child) approach.

Stage 2

If after two weeks there is insufficient change in the child's behaviour, with no underlying/ external issues identified affecting the child's behaviour. The child's parents/carer will attend **2nd meeting** with supervisor, a manager, and parent and a Board member. At this stage, the placement may well be suspended for up to five days. Cost for this suspension period are still required.

Stage 3

The managers will consult with the Board of Directors and seek advice on how to proceed from 2nd meeting.

A further meeting will then take place where the parent/carer may attend unless the service has a reasonable reason to exclude them. In this case, the parent/carer should be notified in writing of the reason and given the opportunity to provide their views to that meeting. Throughout the exclusion process, we must make every reasonable effort to work in partnership with a parent/carer to resolve issues and support the child. However, we reserve the right to withdraw terminate a placement without notice where the relationship is irreconcilable and detrimental to the staff/child's welfare.

Child Protection

We believe that children have the right to be completely secure and we are committed to protecting all children in our care from harm. We have dedicated Child Protection Officers who will act as a link between staff and authorities. If we believe any children to be harmed or in danger, we will act promptly in contacting the East Dunbartonshire social work team to discuss our concerns. We will not discuss our concerns first with parents/carers. We will not request you to share your data. We will comply with East Dunbartonshire Council's "Promoting Good Practice in the Care and Protection of Children and Young People, in conjunction with West of Scotland Child Protection Procedures.

Safeguarding Persons

To safeguard vulnerable adults, we implement and consider East Dunbartonshire Council Policy link below:

[Adult Protection | East Dunbartonshire Council](#) (last accessed June 24)

Quality Assurance

To upkeep quality assurance in our service:

We self-evaluate our play setting, through playroom observation forms, surveys and discussions from all service users', comparing the outcomes with previous results, to stimulate and implement changes.

General Data Protection Regulation for Service Users

Requirements for the General Data Protection Regulation

From 25th May 2018 any personal information collected or stored – online or in paper format – will need to comply with the new General Data Protection Regulation

Personal data includes – parent/carers' names, addresses and email details and children's names and dates of birth etc.

Care Service providers collect and store this type of information to comply with; The Regulation of Care (Requirements as to Care Services) (Scotland) Regulations 2002, Local Authority funding requirements and HMRC Providers must make 'reasonable efforts' to ensure that all the data collected on their minded children has consent from parent/carers with parental responsibility of the child.

The GDPR states that data processing must be lawful, fair and transparent and now gives parent/carers more access to the child's documents. Data must be:

Collected for specified, explicit and legitimate purposes

Minimal - adequate, relevant and limited to those which are necessary

Accurate and kept up-to-date

Stored for no longer than necessary and kept secure

Parent/carers can withhold permission but the ICO and Care Inspectorate must be informed before it is deleted as it might mean that the Provider is in breach of the; The Regulation of Care (Requirements as to Care Services)(Scotland) Regulations 2002 HMRC or Insurance requirements Parent/carers are able to view, update, and change any data that is held at any mutually agreed time.

Written permission is still required from parent/carers before data is used for other purposes, e.g. parent/carers are asked for written permission before we share information with other settings or professionals to support their child. The exception to this is supported by the Local Safeguarding Children Board (LSCB,) that states that information relating to abuse including the risk of a child being drawn into extremism (linked to the Prevent Duty) and any concerns about sexual abuse including Female Genital Mutilation must be reported without informing parents.

Duty of candour

At Time out Club, we will: Act in an open and transparent way clear, honest and effective communication with parent/carers and all service users and throughout their care, including when things go wrong, in line with the definitions below.

We will use the following definitions of openness, transparency and candour used by Robert Francis in his report:

Openness: Enabling concerns and complaints to be raised freely without fear and questions asked to be answered.

Transparency: Allowing information about the truth about performance and outcomes to be shared with staff, people who use the service, the public and regulators.

Candour: Any person, who uses our service that is harmed in Time out club, is informed of the fact and an appropriate remedy offered, regardless of whether a complaint has been made or a question asked about it.

Apology: An 'apology' is an expression of sorrow or regret in respect of a notifiable safety incident; it is not an admission of guilt.

Appropriate written records: Records are complete, legible, accurate and up to date. Every effort will be made to ensure records are updated without any delays.
